

Case Study 2
Philippines, Grade 2, Ilokano (2014)

Objective:

- Set an ORF benchmark for grade 2 using the information provided.
- Set a second benchmark to create two intermediate levels.
- Use these benchmarks to set categories of performance levels and find percentage of pupils in those learning categories for 2014 & 2015.
- Finally, create a target percentage of pupils in these categories for 2016.

Desired Outcomes- Percentage of Pupils by Learning Categories:

		Baseline	Targets	
Category	Benchmarks for Each Category	% of pupils meeting this benchmark in 2014	% of pupils meeting this benchmark in 2015	% of pupils meeting this benchmark in 2016
Non-reader	ORF of zero			
Emergent reader	ORF greater than zero, and less than ____.			
Basic reader	ORF greater than ____, and less than ____.			
Proficient Reader	ORF greater than ____			

Case Study 2
 Philippines, Grade 2, Ilokano (2014)

Box Plots- ORF by Reading Comprehension:

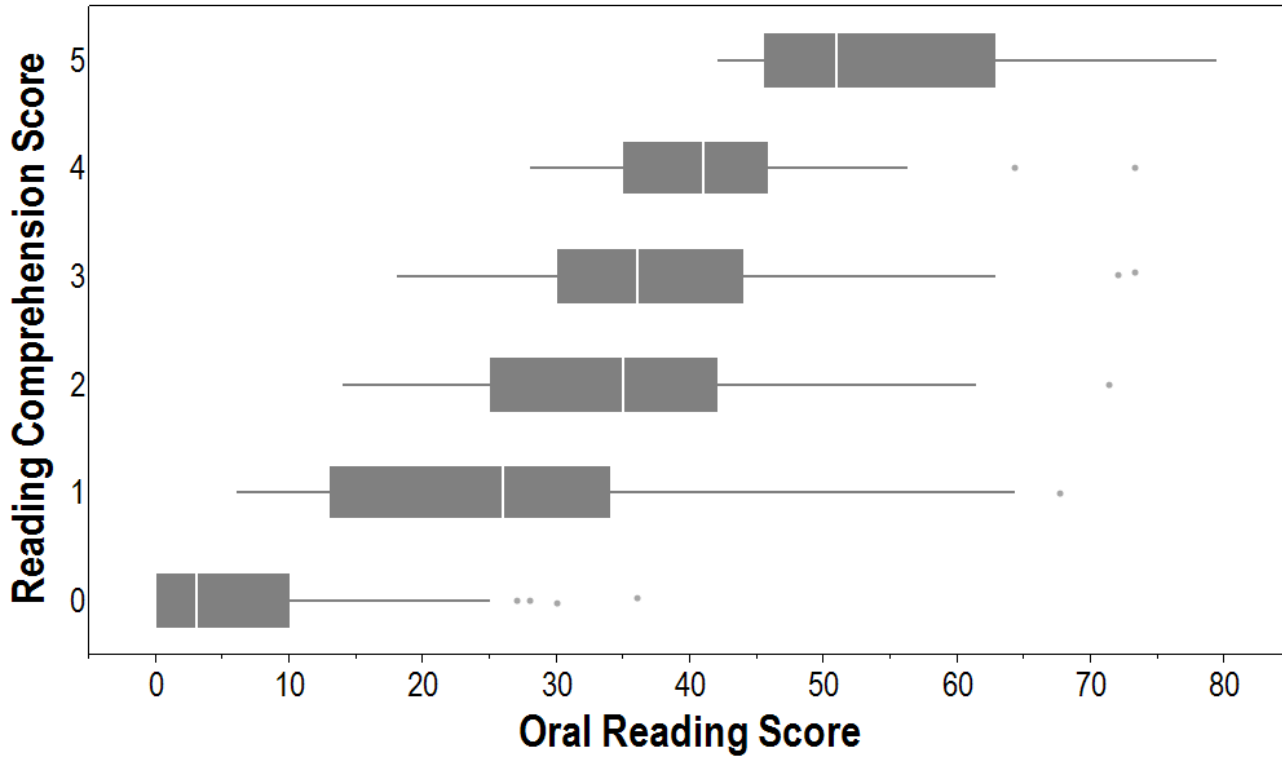

Table- ORF by Reading Comprehension:

# Correct	Mean ORF	25th percentile	50th percentile	75th percentile	Count (achieving # correct)
Zero	6.1	0	3	10	109
1	25.7	13	26	34	35
2	35.0	25	35	42	62
3	38.4	30	36	44	67
4	41.6	35	41	46	66
5	54.3	46	51	63	60

Case Study 2
Philippines, Grade 2, Ilokano (2014)

Cumulative Percentile by ORF:
